

# HOW TO USE

# THE GO BOX

The Go Box was prepared by a team of high school and college students. This group came up with the ideas, the name, and the elements. There were also other young people who served as consultants throughout the process. Some of the materials in The Go Box were written by a youth pastor and some by the team leader, a college student.

We wanted to create a resource that students could use to share their faith. Something simple, easy to understand and use. The Go Box is the result of that vision, several years of hard work, and lots of prayer. We hope this box will help you as you decide to GO and share your faith!

By the way, the stickers and the T-shirt are simple ways to share your faith. When someone sees your shirt or stickers they may ask you about them. Take that opportunity to share what you're learning with them.
